LOW IN MAINTENANCE

- PVC Panels are very easy to clean, Just Wiping with a damp cloth is enough prevents the accumulaton of dirt
- Highly Resistant to fading due to sunlight because of the presence of ttanium dioxide

PV001 - ROYAL MAHOGANY

This panel shows a rich, detailed wood grain, which is indicative of high-quality wood or a realistic wood-like material.

The texture suggests it could be used to give a natural and warm aesthetic to interiors.

The dark brown color with subtle variations in shade adds depth and sophistication, making it suitable for various interior design themes, from rustic to modern.

PV002 - AMERICAN WALNUT

The texture features a pronounced, linear grain pattern, typical of woods like walnut or dark cherry.

Living rooms, dining rooms, and home offices can benefit from this dark wood texture, creating a cozy and refined atmosphere.

Offices, boardrooms, and upscale retail environments can use this texture to convey professionalism and luxury.

PV003 - WARM CHEERY

The texture features a pronounced, linear grain pattern, typical of woods like walnut or dark cherry.

Living rooms, dining rooms, and home offices can benefit from this dark wood texture, creating a cozy and refined atmosphere.

Offices, boardrooms, and upscale retail environments can use this texture to convey professionalism and luxury.

PV004 - LYPTUS

LYPTUS is a brand or type of interior PVC panel designed for decorative and functional purposes in various interior spaces. These panels are made from polyvinyl chloride (PVC), which provides durability, water resistance, and easy maintenance, making them an excellent choice for a wide range of applications.

Used in schools, hospitals, and other public buildings where durability and hygiene are essential.

PV005 - SOUTH AFRICAN KIAAT

This panel shows a rich, detailed wood grain, which is indicative of high-quality wood or a realistic wood-like material.

The texture suggests it could be used to give a natural and warm aesthetic to interiors.

The dark brown color with subtle variations in shade adds depth and sophistication, making it suitable for various interior design themes, from rustic to modern.

PV006 - FLOWER PATTERN

The flower pattern in the PVC panel adds a decorative element to the interior space, creating a visually appealing look.

Overall, the "Interior PVC Panel - Flower pattern" is a versatile and attractive option for interior decoration, offering both functional and aesthetic benefits.

PVC panels are popular due to their durability, ease of installation, and low maintenance requirements.

PV007 - SILVER GREY

The color of the panel is silver grey, which is a neutral and modern color that can complement a variety of interior design styles.

The panel may have a smooth or textured surface, depending on the manufacturer and design. The texture can add depth and visual interest to the panel.

The panel is designed for easy installation, usually using a tongue-and-groove system that allows the panels to fit together seamlessly.

PV008- CREIGE

This PVC Panel is a type of decorative panel made from Polyvinyl Chloride (PVC) material, featuring a unique design or pattern named "Creige".

The panel is likely used for interior design and decoration purposes, such as accent walls, feature walls, or ceiling designs, to add texture and visual interest to a space.

The "Creige" design may feature a specific pattern, color, or finish that enhances the aesthetic appeal of the panel.

PV009- STONE GREY

The "Interior PVC Panel - Stone Grey" can be used in a variety of interior spaces, including homes, offices, hotels, and restaurants, to create a natural and rustic look.

The stone grey color of the panel allows for versatile design options, as it can be paired with a wide range of colors and materials to create different aesthetic effects.

Overall, the "Interior PVC Panel - Stone Grey" is a practical and stylish option for interior decoration, offering durability, ease of installation, and design versatility.

PVG001 - LIGHT OAK

Light oak-colored PVC panels are an attractive and practical solution for enhancing the aesthetics of various interior spaces.

These panels mimic the natural beauty of light oak wood, offering warmth and elegance without the maintenance.

Made of durable PVC, they withstand various climates and conditions, from humid to dry. Suitable for diverse architectural styles, from rustic to contemporary, they enhance any space with their versatile and low-maintenance design.

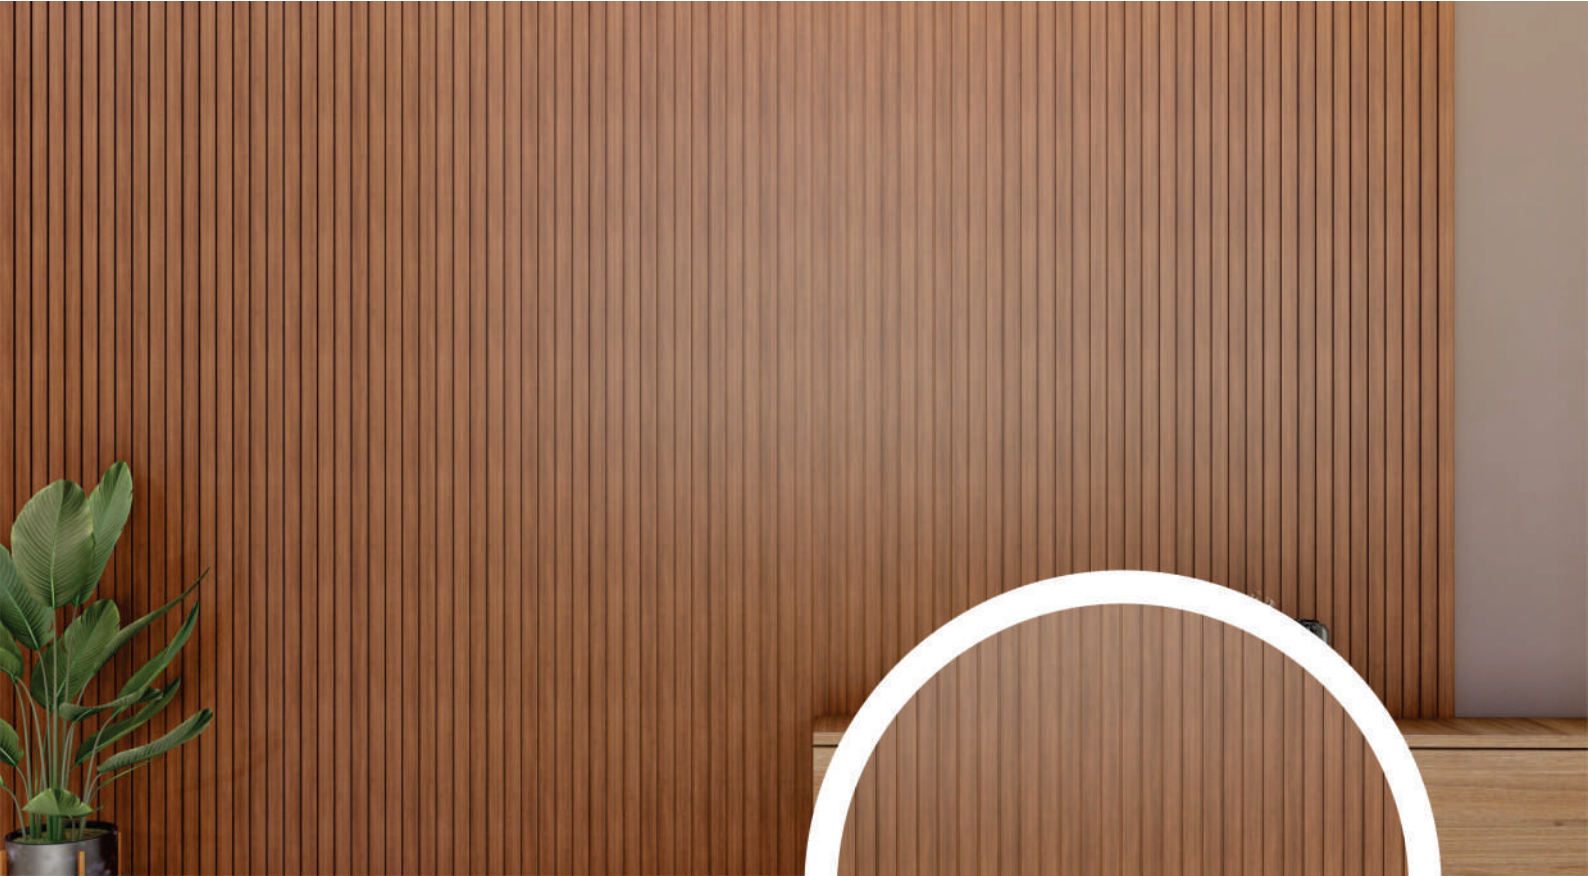

PVG002 - FORSTY WHITE

Frosty white-colored PVC panels are architectural elements designed to impart a sleek, modern look to various interior spaces.

These panels combine the crisp, clean aesthetic of a frosty white finish with the durability & low maintenance of PVC, making them a versatile choice in interior design.

Unlike wood, PVC panels do not rot or attract insects, ensuring a longer life span.

PVF001 - WALNUT BROWN

Falt PVC panels are a great way to add texture and sophistication to any space, whether at home or in a commercial setting.

They make excellent accent walls, and can even be used as wainscoting for a classic, elegant look.

Plus, they're durable and low maintenance. You can also install them on ceilings for a unique and eye-catching design element that adds character and interest to the space.

PVF002 - AMERICAN WALNUT

Transform your interiors with our premium PVC panels, designed to add a touch of modern elegance to any space. These panels are light weight yet durable, making them perfect for both residential and commercial settings.

Our PVC panels are moisture-resistant and eco-friendly, ensuring longevity and Sustainability.

Installation is quick and hassle-free, giving you a sophisticated look in no time. Elevate your space with the perfect blend of style and practicality.

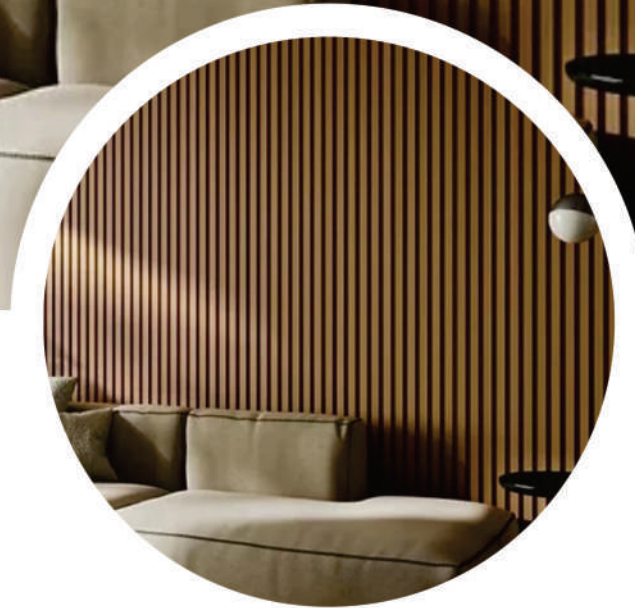

PVF003 - BROWN MAHOGANY

Revamp your interiors with our versatile PVC panels, offering a perfect solution for every decor need.

Choose from a range of patterns such as Silver Grey and Sky, designed to complement any aesthetic.

These panels are not only visually appealing but also functional, featuring easy installation and low maintenance. Ideal for both walls and ceilings, they provide excellent insulation and moisture resistance. Our PVC panels deliver exceptional quality and style.

PVF004 - TEAK WOOD

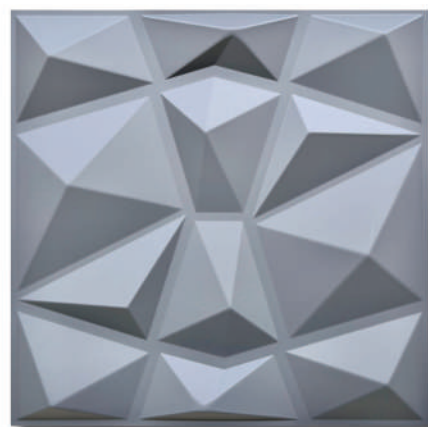

Bring the beauty of nature indoors with our exquisite PVC panels, available in patterns like Plam Floor and Moon White Granite.

These panels offer the perfect balance of aesthetics and functionality, providing a stylish yet practical solution for your interior needs.

Lightweight and easy to install, they are perfect for DIY enthusiasts. Their moisture-resistant properties make them suitable for high-humidity areas, ensuring durability over time. With minimal maintenance, you can enjoy a pristine look for years to come.
